

Sequencing:

\$15.00 per reaction	Less than 96 reactions
\$12.00 per reaction	96 or more reactions

The benefits of getting your sequencing projects done with our latest technology in capillary sequencing:

- Highest quality sequencing data, up to 1100 bases per reaction.
- Longest read allows you to finish your project more quickly with fewer custom primers and reactions.
- Fully automated sample loading and data tracking.
- Consistent data from every sequencing run.
- Maximum sensitivity with less amount of template.
- Fast turnaround service with sequence data **delivered within 24-48 hours**.
- High throughput capacity with more than 20,000 reactions per week.
- Get professional consultation from our highly experienced genomics staff.
- Dedicated customer service and **free pickup** for local customers.
- **Free shipping** for 10 or more samples.
- **New Customers get 50% off the first order (up to 20 reactions) or 5 free reactions.**

Oligo Synthesis:

\$0.70 per base	.05 umole	Next Day Delivery
\$0.60 per base	.05 umole	48 Hour Delivery
\$0.50 per base	.05 umole	2-3 Day Delivery

(For different synthesis scales, please call or go to <http://www.retrogen.com/index/Oligo%20Price%20List1.htm>)

The benefits of getting your oligos synthesized at Retrogen:

- No setup charge.
- 3-5 OD guaranteed.
- Column purified.
- Checked by PAGE.
- Easy online order system.
- Mass production of 1000 Oligos per day.
- Quality Oligos from highly automated system.
- **Next-day delivery** for local customers.

Gene Synthesis:

Price starts at \$4.00 per Base Pair. Please call for a customized price quote.

The benefits of getting your gene synthesis projects done at Retrogen:

- Codon optimization.
- Destabilize the secondary structures.
- Use proprietary software to design and construct the entire gene.
- Complete double stranded DNA sequence verification.

Genotyping:

Please call for a price quote.

Genotyping

- Use SNP and STR methodologies.
- Consult with us for your projects.

For a complete listing of our products and services, please visit our website at www.retrogen.com. If you need assistance on any products or services please contact us at 1-800-RETROGEN.

Sincerely,

Casey Davidson
